PROFILE

Informatics Engineering Student at Gunadarma University with a strong passion for front end developer. With a solid academic background and recent experiences, I aim to build a career as a skilled and versatile web developer, combining expertise in both front-end and back-end technologies.

PROFESSIONAL EXPERIENCES

Santri Go

Status (intern)

Mei 2023– November 2023

- Crafted an engaging website flow for Santrigo, optimizing user experience and navigation.
- Elevated website quality by successfully transitioning from WordPress to Next JS, enhancing performance and responsiveness.
- Developed a blog integrated with a robust Content Management System (CMS), empowering seamless content updates.
- Implemented a secure member login system for Santrigo, ensuring user authentication and data privacy.
- Designed the Santrigo website using Tailwind CSS, creating a visually compelling and responsive user interface.

ORGANIZATION EXPERIENCE

Organisasi Pesantren Mahasiswa (OSPAM)

Operational Management

January 2023 – November 2023

- Crafted a structured gatekeeping schedule for dormitory members, ensuring equitable distribution of duty hours.
- Developed a meticulous duty roster for dormitory shifts, promoting organized and efficient task allocation.
- Oversaw dormitory inventory, promptly reporting and addressing damages for successful maintenance.
- Monitored gatekeeping duties with precision, issuing reminders to on-duty personnel and addressing vacancies promptly.
- Enforced diligent oversight of dormitory duties, proactively reminding and assisting members in fulfilling their assigned responsibilities.
